E-Safety Survey

With an ever developing technological focus for both education and at home we intend to provide the most up-to-date information about keeping safe online to both parents and children at Archibald.

It is for this reason that we will shortly be sending out a survey request. This survey is to find out what access children have to technology at home so we can tailor their learning to help them become safe e-citizens.

This is an online survey, and slightly different for each year group. It is therefore important that you answer the survey for their year group which your child/re is/are in. There are only 9 questions in each survey and they are all ticky boxes.

Information, web links and QR codes to access the appropriate survey for each year group will be sent home next week. If you have more than one child in school, please try to ensure that you complete the correct survey for each child.

Your children's online safety and resilience is our priority so watch this space for updates.
